PRICE TWOPENCE.

ANGLING.

(Secretaries of societies and fishermen of whatever taste or peculiarity, are respectfully requested to forward contributions concerning the prospects of their localities, and any interesting information relative to this delightful branch of sport. Contributions on Rowing and Swimming receive every attention at our hands.)

THE TYNE.—Last week the Tyne, which was little affected by the frequent rains, was in excellent order for angling. The water still continues in good order, and several anglers have used the fly with considerable success. Good sport may yet be expected for some time to come.

THE CLYDE.—During the past week the Clyde and its tributaries, owing to the recent rains, have been in fine order for angling. Saturday, although dull, was favourable, and consequently excellent takes were obtained. One gentleman, residing in Bothwell, captured in less than an hour five fine trout, weighing altogether 11½ lb., all in capital condition. On the South Calder, near Orkistoun, a salmon was taken with the worm. The waters are now rapidly becoming, but good baskets may yet be got.

THE KELSO.—Rod-fishing, says the *Scotsmans*, "still continues good, and the river full and in fine condition for the prosecution of the sport. In the Floors Water two gentlemen have had capital sport for some days past at trout-fishing, and baskets, weighing from 4 lb. to 12 lb., have been captured both in the Tweed and Teviot. In the Tilt, a tributary of the Tweed, a considerable number of grills have been captured. No great takes in salmon will, however, be made until the nets are taken off at the mouth of the river."

SALMON FISHERIES IN CUMBERLAND.—The salmon fisheries of Cumberland, says the *Times*, have been more productive this year than they have been for a very long time. Very heavy draughts have been often taken in the poke-nets on the shores of the Solway Firth, the owners of the nets having frequently been obliged to take down cars for their spoil. Further proof of the beneficial working of the Salmon Fisheries Act is manifested by the fact that some very large fish have been captured. A few weeks ago a salmon, 40 lb. weight, was exhibited for sale in Carlisle market—a very unusual size in that district; and on Saturday last a salmon was on sale 42 lb. weight, which had been caught at Broughouse. This royal fish was sold at 1s per lb. During much of the summer season salmon and salmon trout have been selling at prices as low as those charged for butcher's meat.

THE THAMES.—Sport about Toddington is still improving. The dace are now up in great shoals, and the takes vary from ten to fourteen dozen per boat per day. Barbel-fishing remains about the same as heretofore. Some boats have taken as many as twenty in the day. Bream have taken the bait more freely this week than for some time past, and some good fish have come to bank.

THE TRINT.—The Trint has lowered still more, and the water is almost as clear as crystal. The weather on the whole has been highly favourable for both angling and anglers, who, without doubt, have been more numerous than usual. Roach have been more numerous of other kinds, and the takes have been very encouraging. Greed maff and paste have been destructive in a marked degree. The low water has brought graying on, driving again; they are to be found on the shallows and in the rapids, and several persons have killed three or four nice brace. In barbel fishing more sport has been met than hitherto. In the Long Eaton water a few decent takes have occurred.

RIVERS IN IRELAND.—We have had a regular downpour of heavy rain all over Cork, Kerry, and adjoining counties. Net and weir fishing has nearly ceased all over the country, and the angler is free to pursue his sport till the 1st of November. The fish are now in splendid condition. The past month has been almost a blank to the angler's diary, but this is really the propitious time to start for the Emerald Isle, via Bristol and "the beautiful city" of Cork.—WM. ASHROTH HACKETT, 38, Patrick-street, Cork, Aug. 22.

WURTEMBERG IN THIS ISLAND.—Mr. W. Brabazon, author of "The Deep Sea and Coast Fisheries of Ireland," has made the agreeable discovery that whitebait is abundant to be found in the river Liffey, Dublin.

GRATE FIRE IN BLOOMSBURY.—On Sunday morning last a fire broke out in the premises of Messrs. Holland and Hannan, builders, of Duke-street, Bloomsbury. The premises were stored with great quantities of valuable materials, most of which were of a highly combustible nature. The fire spread to several houses and shops in the vicinity, and was not subdued until after burning for hours.

Athletic Sports.

BARNSELY.

These sports took place last week, and proved quite a success, both as regards the attendance and the entries. There were 17 events, on which the amount of £70 was offered in 35 prizes. CARLOTTA PATTI

CARLOTTA PATTI, THE REIGNING STAR AT "MELLON'S."

STREET CHASE BY MOONLIGHT.—A most exciting affair came off on the night of August 21, near Aldershot, between two officers of the 17th Lancers, to ride across country from Aldershot to Ash station by moonlight, for £10; the riders to wear their nightgowns over their mess dress, and not to ride more than 100 yards of road together; distance about three miles and a half. Dinner was scarcely over at the Lancers' mess when many officers of both regiments arrived mounted, eager to witness the sporting contest. About 10.30 the whole party, consisting of 25 horsemen, left the barracks for the Redoubt fort, where the start was to take place. The riders in their pure white garments were, of course, the centre of attraction as the party wound their way to the starting post. The moon shone brightly, but a thick mist hung heavily over the country, a great deal of the country to be crossed, in some instances rendering it almost impossible to see the fences at all. At the sound of the word "Off" both men went away at a rattling pace. Mr. Walmesley leading over the first three fences, two of which were timber, the third being a rotten bank out of a lane, which fully tested the clever powers of his well-known old grey, the "Pop." Mr. Edgell then came up, and both crossed a post and rail in true sporting style. They soon got into some low ground, where the fog almost entirely obscured the fences, and the pace, which had hitherto been good, became slow, and both horses had some narrow shaves over the awkward places that had to be crossed. The first check occurred at a gate, where both refused, and which after one or two attempts, Mr. Walmesley cleared. Mr. Edgell, evidently disgusted at the likelihood of being left behind, came at it at speed, and succeeded in cramming his horse full through it, literally smashing the gate to pieces. The crash of the gate was heard distinctly in the stillness of the night at about a quarter of a mile off. The riders, now guided by the signal lights at Ash station, kept well together till both jumped simultaneously into the road, some 80 yards from the winning post, where those of the spectators who preferred the road were already assembled. An exciting race ensued. Mr. Edgell passing the post first by little more than a head. Several fields of standing corn compelled the riders to deviate from the direct course which they would not doubt have followed, judging from the straight riding where the crops did not interfere.—*Bell's Life.*

TUP.

C. G.—Two lengths.
Vindex—Three years old. There were upwards of 20 entries.
A Victim.—We know nothing of his.
J. P. (Bristol).—Only five events were brought to an issue, the sixth (the Tradesmen's Plate) not filling.
An Old Schoolmaster.—We have no mention of her being scratched.
Francis P.—We have no mention of the death of Lord Craven, to whom Lord Coventry was nearly related.
Henry Court.—One mile and three-quarters is the length of the course at Doncaster.

PEDESTRIANISM.

A. Constantine.—We should say the bet ought to be considered void.
J. L. F. (Hackney).—He was a professional runner.

CRICKET.

Capitan.—Clearly he was out. 2. One of the All-England Eleven. 3. Enquire of the Secretary of the Club.

RING.

Calder Baldwin.—You have lost the bet. He was born on the 22nd April, 1866.
B. B.—They fought 60 rounds in one hour and ten minutes, when Gully's friends interposed and insisted that they should fight no longer. The "Game Chickens" and man was Henry Pearce.
R. C. L.—Joe Ward.

J. Donnelly.—George Crib was the brother of the champion Tom. He could spar well, but was too slow a fighter, and suffered several defeats.

AQUATICS.

Boat Row.—Killy and Green had their boat cut in two at starting by a steamer.
A. M.—You will find some good hints on training in back numbers of the Rowing Almanack. It is very often made a greater task of than is at all necessary.

Enquirer.—April, 1857. It was also the first time either rowed with round oars.
Umpire.—It is altogether against the laws of boat-racing. No fouling whatever should be allowed.

THEATRICAL.

Playgoer.—Every sort of dramatic performance, that is, performance by actors which tells a story, is drama. A tragedy is a drama which is a tragedy, a comedy is a drama which is a comedy, and a farce is a drama which is a farce. The difference between the three is in the nature of the story, and in the manner of its treatment. The tragedy is a story of sorrow and suffering, the comedy is a story of merriment and amusement, and the farce is a story of absurdity and ridicule. The difference between the three is in the nature of the story, and in the manner of its treatment.

J. C.—Matter too old for this week. We shall always be happy to hear from you. You should notice (briefly) the doings in the town generally, not those at one place only.
G. H. G.—Want of space was alone the cause of rejection.
W. T.—It is usual when they are our recognised representatives; but who is W. T.?

THE PAST AND THE FUTURE.

THE DONCASTER ST. LEGER is gradually drawing upon us, but the subject of its decision has been literally exhausted—"done to death" completely. There is nothing fresh about it to write about, nor is there likely to be unless Lord Lyon breaks down and Savernake is stopped again by rheumatic affection. These two out of the way, we should certainly have a very open race to write about; as it is, we are obliged to repeat for the ninety-ninth time that the St. Leger of the 12th of the ensuing month is reduced to a match between the first and second in the Derby. It may be that it may turn out to be a very easy match after all, but come what may, Lord Lyon cannot have better professional assistance than what he will receive from Custance, nor can Savernake more superior aid than from Tom Challoner. Both jockeys have of late been to ride their Sallenger representatives. Custance speaks in the highest praise of Mr. Sutton's colt, and declares that his Lordship will have at least "the pull" of a stone at Doncaster to that he had at Epsom. This the jockey accounts for in this way. He (Custance) was so much "beaten" that he was unable to render the slightest help to the horse in the last half-mile on the Surrey downs, the Lyon, at the same time, finding the Epsom gradients unsuited to him. Savernake's party are equally as confident of the merits of their oxidized; and Challoner is said to have asserted a few days ago to the brother to St. Alban's is a better animal than Macaroni. They buy themselves with their own ideas, too, that he will turn the tables upon Lord Lyon in the north's Doncaster length in their opinion being better suited to the Wiltshire horse than to the Berkshire one, and that after all "the cracking" up of newspaper sorbites to the contrary, Paradigm's "softness" will come out on the Leger day. We are not prepared to contradict that idea, simply because we know a fact that Lord Lyon in his two miles and a half spins with Eland and Split-the-Difference has not evinced the slightest indication of non-staying, or has he displayed any tendency to roughness. On the contrary, he has always done his work with the ease of a deer and the resolution of a lion. What more can we expect of him? Besides, we are always impressed with the fact that what a horse has in his side, he is capable of doing again, with health and fairness on his side. His Lordship has already vanquished Savernake under great disadvantages, and he must do it again, despite what may be urged of French's shortcomings on the Derby day and the improvement effected in the way of Stockwell and Bribery. Savernake is having the benefit of a nice preparation at the hands of Alex Taylor, and no man, not even John Scott, knows how to bring a Leger bag to the post better. The colt had a splendid three and a half miles sweat on Tuesday, and from the manner in which he subsequently won the Derby, it is not surprising with Bradamante there is no doubt he is an animal of great merit. Still, concede him all his due, we cannot believe he will be so near to the Lleyal crew in the north as he was in the south. Both horses, however, will carry an immense stake, particularly Lord Lyon; each will be in prime condition, and each will be most talented steeple. The only middle we have to solve now what is the best for third place? Certainly not Rustic. We cannot have him now at any price. He is a white-livered, over-rated, skulking brute, and his own party are thoroughly disgusted with him. Mr. Sutton, as we declared last winter, knew that he had sold a much inferior animal to Lord Lyon, when he closed the bartering with the Duke of Beaufort for "the lion." He should not be so surprised to see something else represent Danbury on the day; though we cannot believe in Leslie after what we saw at Wolverhampton and York. Repulse is doing first-class, and might come to the rescue. Still, we should prefer Strachan or Westwick to either of John Day's candidates; and we are told to prepare ourselves for a battle in London, who is the splendid work at the Lord Glasgow's pair. Redan is not only a consummate rogue, but deficient in stamina; and Baron Rothschild's Robin Hood is merely trotting about just now. Vespasian, the Duke of York, and Mount Palestine lack staying powers; Laneret has been amiss sometime; and Monarch of the Glen goes to stud. Fodargus will not be able to get round in time; and Loybourne is dis-

posed of, on public form. John Scott has had a great deal of trouble to get Knight of the Crescent round again, but he has not succeeded so well with the Midsummer colt. Next week we shall return to the subject of the Sallenger race; but we are no chance of our altering the opinion we have long since expressed, and which has induced so many of our contemporaries to follow suit, that

LORD LYON AND SAVERNAKE

will have the issue to themselves. The WARWICK autumnal sports are on next week, and there might be a Doncaster sensation or stir up there; still, we fancy the interest of the meeting will be centered in the actual racing there. At the time we were writing no cheer is heard to hand, containing the complete programme, but we understand that the following poor acceptance has been made for the Leamington Stakes out of the fifty-two animals weighed:—

This handicap is invariably a ticklish affair to deal with; but were we certain of a clear run for our money we should stand

BRADAMANTE AND NUT

out-and-out, though we know both Anti-Macassar and Calthrops are now in form. The SOILED DOVE may be the best for the Castle Park Stakes; and GLAUCUS filly for the Avon Stakes. We need look no further than ELLAND or REGALIA to land the Warwick Cup; or to SATYR for the 5 Sovs Sweepstakes (three-quarters of a mile).

Hopes are entertained that L'Africain, the fine son of Faugh-a-Ballagh, notwithstanding his severe accident at Lille, in which he broke his leg, will be saved for stud purposes. It is stated that M. Vallance refused 2500 sows for L'Africain before the race. A National Horse Show, patronised by the Marquis of Abercorn, is to be held in Dublin on the 26th of September and two following days, when all classes of horses may compete. The prize list, which is being raised by subscription, at present amounts to 4500 l.

CHELTENHAM RACES.—An attempt has been made to get up an autumn meeting at Cheltenham, and the experiment will be tried on the 16th of October, the Tuesday preceding Herford. A capital course has been selected within a short distance of the town, more than a mile in circumference. A section of the new Cheltenham portable stand will be complete at the time and we anticipate some good sport.

DEATH OF THE EARL OF CRAVEN.—The death is announced of the Earl of Craven. His Lordship, who was the second Earl and eighth Baron, was born in 1800, succeeded his father in 1825, and was married in 1835, to Emily Mary Grimston, second daughter of the first Earl of Verulam. A large portion of the family estates lie in Warwickshire. His Lordship is succeeded by his eldest son, Viscount Uffington, Captain in the Scots Fusilier Guards, born in 1841.

Under the superintendence of Mr. W. The stewards are the Duke of Beaufort, Lord Stamford, G. Payne, Esq., and A. Heathcote, Esq.; and providing the date is altered, it stands (November 27 and 28) at dishes with Greydon—we see no impediment to its proving successful.

Brook Hill Steeplechases (2d & 3d) are fixed to come off on September 18 and 19. Full particulars will be advertised shortly. In consequence of the retirement of Mr. St. George, so well known for his racing world in connection with the Knight of St. George, Darling, Sorcerer, &c., Mr. S. well has been commissioned to dispose of the whole of his valuable stud.

Fat Jack, late the property of Sir Charles Roushoun, has been resold to Mr. Abington, in token of his last meeting, and successfully christened his new title at Bathnam on Saturday last.

HENDON (WELSH HARP) RACES.—We have much pleasure in calling the attention of turfites to the announcement in our advertising columns, that a two days' race meeting will take place at Mr. Warner's park over retreat at Hendon, on the 20th and 21st. That the meeting is a good one, and as five races per diem will be decided, and the prizes are so liberal that they cannot fail to draw competition amongst owners and trainers, we are quite justified in predicting a very successful result to the labours of the energetic and spirited Welsh Harp posturers.

HUNTING.

A GOOD RUN WITH THE DEVON AND SOMERSET STAG HOUNDS.

(From a Correspondent.)

On Friday, the 24th, the meet was at Cloutnam and the field numbered from two to three hundred gentlemen and ladies. Four couples of hounds were thrown in and found about three o'clock a fine stag in Horner-wood, which crossed Horner water to Paragona Brake, round the north side of Dunkey, crossing the road to Landcombe Head. Here the pack was laid on about an hour and a half after the start. The Stag was over Stock, and the genuine article, crossing Chalkwater over the common to Badgeworthy water. Down the river the stag broke away to the left over Badgeworthy Common to Farley water, when he went down the river for about a mile. He again turned to the left, crossing the River Lynn, going down the river for about a mile. They were such a height, that the stag was followed him. Boniface, a well-bred dog, being the leader. The stag ran to the sea, a short distance above Lynmouth. A boat was then put out and he was brought back to the beach, where his throat was cut by Mr. Toddler, after a run of three hours and a half, the field keeping well together. The pack worked well, and all at the death except one. The stag was a very fine one, one of the antlers having a bow, ray, and tray, and the other one, and one on the top. I am sorry to add that the groom of Mrs. W. Browne, the accomplished horsewoman who grazed the hunt with her presence, was thrown from his horse and much hurt.

A REALLY GOOD CHASE.—It is said with truth that there are few things more picturesque in this great metropolis, or the love of a good dog has some reason to doubt the applicability of the assertion. Pay what you will and in nine cases out of ten, you will only procure a nasty ill-flavoured "weed," so scarce as to make it an unattractive luxury. If we require evidence of the fact, we have only to patronise the Tobacco Manufacturers of France, at 109, Strand, W.G., for here we are happy to say we can always get the genuine article made up in bundles of six, and are sold at prices ranging from a penny to three shillings. The 6d. bundle is a marvel of cheapness, and it is difficult to realise the fact of six real good cigars being prepared at so ridiculously low a price, nevertheless the fact is indisputable, and this alone should ensure the Imperial Tobacco Manufacturers an extensive patronage.

NEWCASTLE-UPON-TYNE.
The weather was unfavourable last Saturday, and there was a good attendance, certainly not drawn together to witness the solitary contest advertised in particular, but to behold the cannie match in Mr. Williams's Dog Handicap. The winners were John Green, of Fawdon, and George Black, of Burnmouth. The runners were two lads, nearly 1,200 yards apart, for a total distance of 1,400 yards. The race was run in an hour later. Black, on whom there was 5 and 6 to 4, had the inside lead at the second essay the brace started. Black out cut them, and led by one yard up the flat and round the first and second turn, with a good margin to close attendance. 300 yards from the start Green made a dash for the goal, and passed to the front. At the third turn Black struggled for the prize of a brace, but was unable to do so, and Green, who may here say that he had the race in hand at the start, was the finish of the first lap Black was last by four yards, and gradually losing ground, was defeated by a dozen yards. It was a good match.

LEEDS.

After a long delay at the mark, they got off to a capital start; Helmley, however, could not breast his opponent, who came in a winner by two yards. Mr. J. Bartle, Harp Tavern, Kirkgate, was stakeholder and referee.

Jobling, of the London Athletic Club, were to have run off the trial heat of the 100 yards race, but the dispute which of the two should contend with Mr. Emery, the holder of the record, was so long delayed that at half past five Mr. Jobling not being ready, on the following Saturday, the contest had to be postponed until the 26th inst., when the matter took over. Old Harry drove down the winner, and likewise acted as starter. Mr. O. J. Kearney-Wyllatone performed the office of referee.
